

- The door drawings in this catalog are not necessarily all scaled the same. Drawings are intended for visual reference only and are not suitable for architectural purposes.
- The Call Size is a unique identification number for the product type and size. Use this number to specify unit and size wanted.
- A dimension page at the back of this section gives precise specifications for all the major dimension for this product. Please refer to it for additional size information.
- All units are available with or without grilles. Drawings show the standard grille lite division for the product as a stand-alone unit. When mulling with other units grille lite division may vary.
- Unit may be mulled with others to form a combination unit. Rough Opening should be adjusted to account for the additional units. Generally, add the unit dimensions together and add 1/2" for the rough opening.
- The standard jamb depth is 4-9/16". Jamb Extension may be added to increase the interior wood jamb depth up to 6-9/16". Specify exact jamb depth needed. Exterior Frame Extensions are also available to increase the jamb depth to 6-9/16".
- Exterior Dimensions with Brick Mold, add 2.75" to the width and add 1.375" to the height. Note: interior frame and rough opening dimensions are not affected.
