

SunClad USA Easy-Tilt Double Hung Window

Sun's Premier Clad-Wood Double Hung Window

The SunClad USA Easy-Tilt Double Hung window is Sun's premier clad-wood, double hung window. It's distinctive sash profile and refined details, combined with it's quality build, place it at the forefront of today's clad-wood double windows.

It features a traditional sash-over-sash design where both sashes open for ventilation and tilt-in for easy cleaning of the exterior glass surfaces. An innovative combination of our positive contact floating jamb liners with finger release tilt-sash operation provides excellent weather seal performance along with easy tilting sashes. The sash locks and finger release latches are recess mounted on the sash lock rail. The heavy sash lock rail features Sun's distinctive rounded front profile.

As with all Sun Clad products, the USA Easy-Tilt is designed and built to provide superior energy saving performance. Select one of Sun's Low-E Insulated Glass configurations to take advantage of Sun's best energy performance combination for your needs. Additionally, upgrade your Low-E IG with ClimaGuard SPF™ glass for the ultimate in UV protection.

The SunClad USA Easy-Tilt is hand crafted to provide you with a high quality and dependable window that will serve you and your home for many years.

Features & Options

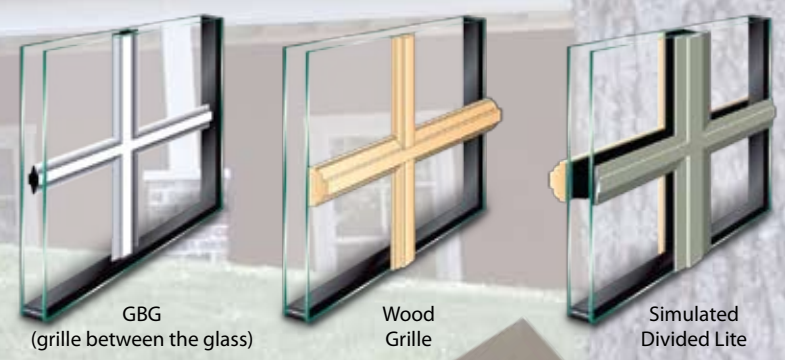

- SunClad Exterior with High-Durability Powder Coat Finish.

ClimaGuard 63/31

ClimaGuard 55/27

Low-E Glass Options: Sun offers Low-E glass that is optimized for maximum energy-efficiency in your regional climate. Select from ClimaGuard 63/31 for regions that have both heating and cooling seasons. Select ClimaGuard 55/27 for regions that require mostly cooling. Both of these can be combined with ClimaGuard SPF for the ultimate in UV protection.

Companion Products: SunClad Double Hungs can be combined with companion products to form special feature windows. Available companion products are Fixed Lites, Transoms, Round Tops, Arch Tops, Quarter Round Tops, Eyebrow windows, Custom Geometric Shapes and Gothic windows.

Window Combinations: SunClad Double Hungs are designed so that they can be easily grouped together to form multi-unit configurations. These can be as simple as combining two units together, side by side, to form a 2-wide unit, or as complex as combining multiple units of various styles and shapes to form a special feature window wall. Send us your ideas and we will help you configure your special combination.

Special Needs or Requirements: If your project has special needs or requirements, contact your Sun Representative or Sun Windows Customer Service Department to make your request. Sun will be glad to review your project to see if we can help you meet your needs.

The Best UV Protection Under The Sun

CLIMAGUARD SPF™
COMPLETE UV PROTECTION

Sun Windows is proud to offer ClimaGuard SPF™ on many of our SunClad products. ClimaGuard SPF™ offers the best UV protection available in residential windows and doors.

ClimaGuard SPF™ protects home furnishings from the fading effect of the sun without sacrificing natural daylight and the appearance of uncoated glass.

What Makes ClimaGuard SPF Unique?

Superior fade protection—Even the highest performing Low-E products come up short on UV protection. *ClimaGuard SPF Blocks 99.9% of both UV-A and UV-B radiation.*

Clear quality—ClimaGuard SPF looks the way window glass should look—no bright colors, no dark tints, and no shiny reflections.

Superior comfort and energy savings—when combined with Low-E glass, maximizes comfort and minimizes heating & cooling costs by keeping heat where you want it—regardless of the climate or season.

Count on ClimaGuard SPF's unique combination of patented technologies to provide superior protection and performance, year after year.
